

MEMORANDUM

To: Congressional Black Caucus Minority Business Task Force
From: Albert R. Wynn, Chairman, CBC Minority Business Task Force
Date: September 27, 2005
Re: **Hurricane Katrina Minority Subcontracting Opportunities**

In an attempt to provide your constituent small and minority businesses with timely and useful information regarding contract and business opportunities in the wake of Hurricanes Katrina and Rita, I have compiled a listing of prime contractors, and commodity/service contact information. This prime contractor information is for both the Department of Homeland Security and the Army Corps of Engineers.

Some people who have been to the affected areas have suggested that a good deal of subcontracting is happening on the ground. If your constituent companies offer needed services and /or equipment, they may have some success by having representatives on the ground to negotiate with those prime contractors already on site.

US Army Corps of Engineers, Mississippi Valley Division

www.mvd.usace.army.mil/hurricane/
www.lrl.usace.army.mil/disasterequip/

These are Prime Contractors for U.S. Army Corps of Engineers response and recovery efforts following Hurricane Katrina. Each prime contractor has designated points of contact to explore subcontracting opportunities, including small business, service-disabled veterans, small HUB-Zone concerns, small disadvantaged business, and small women-owned business. If you are interested in working in any of these areas, *please contact the prime contractor directly.*

Debris
